

# Andrés Romero

PhD computer vision and parallel architectures

## About

6 rue de Chateaudun  
94200 Ivry-sur-Seine  
France

☎ 0178542907  
☎ 0754822251

✉ andresrommier@gmail.com

🐦 andresrommier

🌐 andresromero  
in romeromier

## Languages

Full working proficiency in  
spanish, english and french

## Programming/ architectures

C and C++ (12+ years),  
Matlab (8+ years), Python  
(4+ years), PHP (4+ years),  
Javascript,  $\LaTeX$

OpenMP, SIMD (SSE, AVX,  
Neon and Altivec)

Notions of Massive Data  
Mining using MapReduce  
(Hadoop) and R

TI C6000 and C5000  
Panda boards, Raspberry  
PI's and Intel ULV platforms

## Operating systems

Strong Linux/Unix skills, Mac  
OS X, Windows

## 🧪 Interests

My research focuses on the development and acceleration of signal processing and computer vision algorithms. A key goal of my research is to develop high performance algorithms for **visual object detection, tracking** and **texture description** for real-world problems. The algorithms I have worked on require the understanding of a broad set of areas: **machine learning, software engineering, computer architecture** and **statistics**.

In total, I have more than 8 years of research experience working with signal and image processing algorithms in embedded architectures. I am familiar with **ARM architectures** (ARM Cortex A9 and A15) and the **Texas Instruments C6000 DSP** family. On those platforms I have implemented many image, voice and audio processing algorithms.

Other fields of interest to me are **data science, natural language processing** (NLP), **data mining, information theory, complexity theory** and **cybernetics**.

## ✍ Education

- 2010-2013 **Ph.D.** in Computer Science Laboratoire de Recherche en Informatique, Université Paris Sud  
**Advisors:** Lionel Lacassagne and Michèle Gouiffès  
Real-time multi-target tracking: A study on color-texture covariance matrices and descriptor/operator switching.  
The results of this work were considered for the **ITEA/Spy european project**.
- 2006-2008 **M.Sc.** Signal Processing Instituto Politécnico Nacional (IPN)  
**Advisors:** Héctor Pérez Meana and Mariko Nakano Miyatake  
Subject: Acoustic active noise controllers in TMS320C6713DSK platforms.
- 2000-2005 **Telecommunications Engineering** Universidad Nacional Autónoma de México (UNAM)  
**Advisor:** Bohumil Psenicka  
Graduation project: Acoustic active noise cancellation.
- 2000 **High-school** Centro Universitario México, Mexico City  
Specialization in mathematics and physics

## 👛 Experience

- 2014 **The Planorama Group** R&D Software Engineer  
Content-based Image Retrieval engine developer and other Computer Vision tasks
- 2013-2014 **Université Paris Sud, Orsay Faculty of Sciences** Invited researcher and teacher  
Research work: Covariance descriptor algorithm implementation on "Many-core" architectures (Xeon-Phi)
- 2012-2013 **ITEA/Spy European Project** R&D engineer  
Tracking and pedestrian re-identification module, project in collaboration between CASSIDEAN, EOLAN, ENSTA and IEF, Université Paris Sud
- 2009 **Minalum de México S.A. de C.V.** R&D engineer  
Brush-less DC motor controller development using PIC's
- 2009 **Czech Technical University in Prague, Czech Republic** Visiting Student  
Hosted by Prof. Pavel Saradnik

## Languages

Full working proficiency in  
spanish, english and french

## Programming/ architectures

C and C++ (12+ years),  
Matlab (8+ years), Python  
(4+ years), PHP (4+ years),  
Javascript, L<sup>A</sup>T<sub>E</sub>X

OpenMP, SIMD (SSE, AVX,  
Neon and Altivec)

Notions of Massive Data  
Mining using MapReduce  
(Hadoop) and R

TI C6000 and C5000  
Panda boards, Raspberry  
PI's and Intel ULV platforms

## Operating systems

Strong Linux/Unix skills, Mac  
OS X, Windows

2007-2009	<b>Computer security department, DGSCA, UNAM</b> Emergency response team (CERT) system development.	Software engineer
2006-2007	<b>Operations engineer</b> Satellite and GPS surveillance system operator	Qualcomm, Omnitrac, Mexico City, Mexico
2004	<b>Electoral Institute of Oaxaca, Oaxaca, Mexico</b> Pre-electoral results system for the 2004 governor and local congress elections	Software engineer

## Teaching experience

2013-2014	<b>ATER (Invited researcher and teacher)</b> <b>Courses:</b> <ul style="list-style-type: none"><li>• SIMD instructions for image processing,</li><li>• On-line data representations (XML, DOM, XPath, XSLT),</li><li>• Relational data bases (SQL),</li><li>• Advanced C programming,</li><li>• Logical component and computer architecture,</li><li>• Scilab.</li></ul>	Université Paris-Sud, France
2012-2013	<b>Laboratory teacher</b> <b>Courses:</b> SIMD instructions for image processing.	Université Paris-Sud, France
2005-2008	<b>Laboratory teacher</b> <b>Courses:</b> <ul style="list-style-type: none"><li>• Digital signal processing algorithm implementations on DSP architectures,</li><li>• Digital and analog filtering.</li></ul>	Universidad Nacional Autónoma de México, Mexico

## Publications

### Article in peer-reviewed journal

Color tracking with contextual switching: Real-time implementation on CPU

F. Laguzet, A. Romero Mier y Terán, M. Gouiffès, L. Lacassagne

*Journal of Real Time Image Processing (JRTIP) Special Issue on Real-Time Color Image Processing (2013). Springer, 2013*

H, Perez-Meana, A Hybrid Noise Canceling Structure with Secondary Path Estimation

A. Romero, M. Nakano-Miyatake

*WSEAS Recent Advances in Systems, Communications and Computers (2008) pp. 194–199. 2008*

### International peer-reviewed conferences/proceedings

Total Bregman Divergence for Multiple Object Tracking.

A. Romero, M. Gouiffès, L. Lacassagne

*IEEE, International Conference on Image Processing (ICIP), 2013*

Real-time covariance tracking algorithm for embedded systems

A. Romero Mier y Terán, L. Lacassagne, A. Hassan Zahraee, M. Gouiffès

*Conference on Design & Architectures for Signal & Image Processing (DASIP) proceedings. 2013*

Enhanced Local Binary Covariance Matrices ELBCM for texture analysis and object tracking

A. Romero, M. Gouiffès, L. Lacassagne

*MIRAGE 2013, Berlin, Germany. ACM International Conference Proceedings Series, 2013*

Covariance Descriptor Multiple Object Tracking and Re-Identification with Colorspace Evaluation

A. Romero, M. Gouiffès, L. Lacassagne

*ACCV 2012 Workshops, Part II, LNCS 7729 proceedings, 2012*
